

YELLOW BOX = MAGIC BOX?

YELLOW BOX JUNCTION

A yellow box is meant to improve traffic flow at road junctions.

Motorists are not allowed to stop inside a yellow box and obstruct other vehicles, except under the following circumstances:

1. Turning vehicles in a box-junction do not block other vehicles.
2. Right-turning vehicles held up by oncoming traffic.
3. Turning vehicles waiting for pedestrians to cross.

How can I drive out when nobody is giving way??

Let me tell you a secret!

For my magic yellow box to wield its power, there must be a stationary vehicle queue extending across a road junction.

With my yellow box at the junction, motorists are not allowed to stop within the box and cause obstruction to other vehicles such as those trying to drive out from a side road.
