Application for Permit to Work on Public Streets

Regulation of Works

In Singapore, all works on the public streets are regulated by the Land Transport Authority (LTA). A permit is required before anyone can start work.

The LTA publishes the Code of Practice for Works on Public Streets that sets out the procedures and requirements for carrying out the works. This Code aims to ensure that all works are carried out safely with minimal inconvenience to road users.

Pre-Consultation Approval

- 1) Consult LTA to obtain in-principle pre-consultation approval for the following works on public streets:
 - a. Work proposal that requires Master Plan Committee (MPC) adoption
 - b. Improvement or upgrading schemes for utility services
 - c. Engineering work with excavation of 4m depth or deeper
 - d. Tunnelling works and other engineering works
- 2) Documents required:
 - a. Proposed extent of works including route alignment and excavation area
 - b. Preliminary impact analysis of the works on public streets or road infrastructure(s)
 - c. Proposed feasible method of work execution i.e. open-cut, pipe-jacking, etc
 - d. Letters of clearance from other relevant authorities

Application for Approval

- 3) Log on to LTA.PROMPT – Permit for Road Occupation Management PorTal at <https://prompt.lta.gov.sg>
- 4) Register online as a member to submit applications for works
- 5) Submit your electronic application with soft copies of the following:
 - a. Location and site plan of proposed works
 - b. Photographs of existing road and ground conditions
 - c. Method statement of work
 - d. Photographs and schematic diagrams of existing road markings (*for works affecting road-carriageway*)
 - e. Traffic control plan (*for works involving road lane occupation*)
 - f. Notification of emergency openings (*where applicable*)
 - g. Engineering evaluation report and plan for engineering works (*where applicable*)
 - h. Certified topographic survey plans (*for critical engineering works*)

Application for Approval

Note: More documents will be required if your application is for engineering works i.e. any construction work that is likely to affect the structural integrity and safe operation of any public streets or road structure.

Please refer to the Code of Practice for Works on Public Streets found at <http://www.lta.gov.sg> for more information.

Applicants are advised to visit the LTA.PROMPT website for more information on the electronic application and the recommended formats of the attachments.
