

# TUNNEL SAFETY INFORMATION

This safety insert is designed to be kept in the seat pocket of your car. Please familiarise yourself with safe tunnel driving habits and emergency procedures before entering the tunnel.

For your safety, speed cameras have been placed at various locations along both bounds of the KPE to ensure that motorists maintain a safe driving speed at all times.

The above diagram is for illustrative purposes and is not an exact replica.

# EMERGENCY PROCEDURES

## Vehicle on Fire

- Move to road shoulder
- Go to emergency cabinets next to slow lane (every 50m) for extinguisher
- Use emergency phone to call KPE Operations Control Centre (OCC) or 1800-CALL LTA (1800-225 5582)

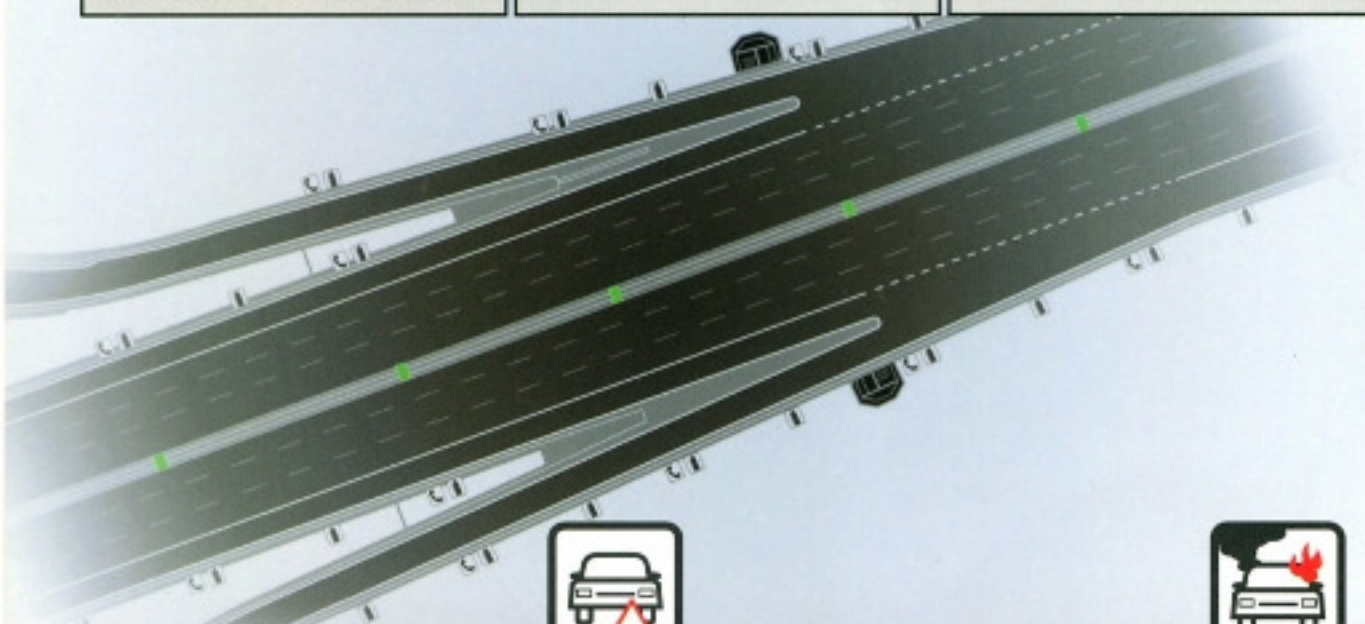

## Accident

- If uninjured, drive out of tunnel; stop at safe location outside tunnel
- If there are injuries, use emergency phone to call KPE OCC or 1800-CALL LTA (1800-225 5582)

## Major Obstructions

- Stop if all lane use signs show red crosses
- Listen to any local radio station for emergency announcements

## Vehicle Breakdown

- Switch on hazard lights
- Move to road shoulder
- Use emergency phone to call KPE OCC or 1800-CALL LTA (1800-225 5582)

## Emergency in Tunnel

### If you are in the tunnel:

- Follow lane use and tunnel signs
- Listen to any local radio station for announcements
- If you cannot proceed, do NOT reverse vehicle
- Turn off engine and leave tunnel

### If you are approaching the tunnel:

- Do not enter tunnel
- Look at electronic signboards (EMAS) for messages
- Seek alternative route

# KEY EMERGENCY INFORMATION

- Follow signs/radio announcements
- Find nearest escape staircase or cross passage door and leave the tunnel
- Call for help on emergency phone or 1800-CALL LTA (1800-225 5582)
