什么是“延时绿人”？

“延时绿人”是陆路交通管理局的另一项新措施，旨在应对年长者过马路时需要更多时间的需求。

“延时绿人”如何运作？

乐龄人士只需把他们新的优惠卡轻触装置在交通灯柱子上的阅卡器即可启动“延时绿人”的功能。阅卡器上的红色线条会立刻亮起，显示绿人闪亮时间将延长以让他们过马路。

陆路交通管理局为什么要实施“延时绿人”？

“延时绿人”是陆路交通管理局借助科技以更好地应对我们日渐老化人口需求的方法之一。目前有5个行人过道装置“延时绿人”系统。陆路交通管理局将在适当的时候考虑在更多地点增设“延时绿人”设施，并且也将稍后为残障人士推出类似的计划。

What is Green Man Plus?

The Green Man Plus is a new initiative by the Land Transport Authority (LTA) to address the needs of elderly pedestrians who may require more time to cross the road.

How does the Green Man Plus work?

Senior citizens can activate the Green Man Plus function simply by tapping their new Senior Citizen concession cards on the reader mounted at the traffic light pole. The red strips on the card reader will light up, showing that green man time will be extended for them to cross the roads.

Why is LTA implementing the Green Man Plus?

The Green Man Plus is one way in which LTA leverages technology to better meet the needs of our ageing population. Currently, there are five pedestrian crossings with Green Man Plus. LTA will consider increasing this number if appropriate. In addition, LTA will roll out at a later date a similar program to benefit the disabled.
